****Soon to be adapted as a major TV series**** The war raged across the galaxy. Billions had died, billions more were doomed. Moons, planets, the very stars themselves, faced destruction, cold-blooded, brutal, and worse, random. The Idirans fought for their Faith; the Culture for its moral right to exist. Principles were at stake. There could be no surrender. Within the cosmic conflict, an individual crusade. Deep within a fabled labyrinth on a barren world, a Planet of the Dead proscribed to mortals, lay a fugitive Mind. Both the Culture and the Idirans sought it. It was the fate of Horza, the Changer, and his motley crew of unpredictable mercenaries, human and machine, to actually find it - and with it their own destruction. Consider Phlebas is a space opera of stunning power and awesome imagination, from a modern master of science fiction. Praise for the Culture series: 'Epic in scope, ambitious in its ideas and absorbing in its execution' Independent on Sunday 'Banks has created one of the most enduring and endearing visions of the future' Guardian 'Jam-packed with extraordinary invention' Scotsman 'Compulsive reading' Sunday Telegraph The

Amazon's interminable project backlog of genre-driven peak television offerings just added a major mythology. Amazon Video, the streaming service of the online retail leviathan, has acquired the global rights to a TV adaptation of Consider Phlebas, which was the canonical starting point of author Iain M. Banks's celebrated books, collectively known as the 'Culture' series.

[The Culture - Wikipedia](#)

The Culture is a fictional interstellar post-scarcity civilization that resembles or is organized similarly to, a communistic [not in citation given] or anarcho-communistic [citation needed] society. The Culture was created by the Scottish writer Iain M. Banks and features in a number of his space opera novels and works of short fiction, collectively called the Culture series.

[The Culture \(Literature\) - TV Tropes](#)

The Culture is a series of novels (and some short stories) by Iain M. Banks which share a common setting, the civilization known as The Culture.. Consider Phlebas (1987); The Player of Games (1988, typically considered the best introduction to the series); Use of Weapons (1990); The State of the Art (1991) A collection of short fiction, some of it set in The Culture universe.

[List Of Spacecraft In The Culture Series - Wikipedia](#)

This is a list of spacecraft found in the Culture novels and short stories by Iain M. Banks. Most ships in this list are members of The Culture, the hybrid society featured in many of these novels. In this setting, each Culture ship, and some others, is also an artificial intelligence with a distinctive personality. Many of these ships are significant characters in the novels.
