It is an icy night in the country that long ago was known as Transylvania. The wintry ground crackles as a hunter's paw breaks the hard earth. The wolf pauses, her breath like smoke in the cold air, then a howl pierces the night. But it is her eyes, not her howl, that speak of danger. Beware of the Sight. In the shadow of the Carpathian mountains, a pack of wolves seeks shelter from the vicious winter. A legend clings to them - a story of man and wolf, of power and death. The Sight has come into their world. They will never be the same again.... 'A strong, uncompromising story with truths as its core that echo our own lives....' Scotsman
